

# **SOLAR ENERGY**

**with solar power consultant  
Ric Breines of Real Goods Solar, Inc.**

Ric Brienes will be discussing the merits of residential solar power, focusing on the \$0 out-of-pocket - 0% escalator Power Purchase Agreement (PPA) concept, replacing unpredictable electric bills with known costs, and assurances provided by residential PPAs. Homeowners are still unfamiliar with this concept and attendees should find this most educational. The advantages of solar power are diverse including helping the environment, saving money, investing in your home's equity, and supporting the clean energy economy. Renewable solar power is easy and affordable so you can use it at home. Most solar customers experience savings of 15-20% on their energy bills, which can add up to \$35,000 or more over 20 years.

**Saturday, February 25 at 1:00 pm**  
**North County Branch Library**  
65 Halstead Street, Clinton, NJ
